

Summary of Additional Benefits

Available for Delta Dental of South Dakota patients whose employer participates in the Health *through* Oral Wellness® program. Patients may qualify for additional benefits if they are determined to be at risk for caries and/or periodontal disease based on the results of a PreViser™ risk assessment performed in a dental office.

Qualifiers	Additional Services	Total Benefit & Frequency	CDT Codes	Notes
Risk Assessment	Caries risk assessment	1 per Benefit Year	D0601, D0602, D0603	PreViser dentists' patients receive benefits for annual PreViser caries risk assessments. Non-PreViser dentists caries risk assessment benefit is once every 3 years for patients age 3-19. For risk assessments to be billed, there must be a caries risk assessment or a combination caries and perio assessment. There is currently no ADA perio risk assessment code. Therefore, a perio-only risk assessment cannot be billed at this time.
Tooth Decay Risk Score 3-4-5	4 Fluoride	4 per Benefit Year	D1206, D1208	Adult additional benefit includes 4 fluoride treatments. 2 treatments are already covered for children under age 19. Now children have 2 additional for a total of 4 fluoride treatments.
	Sealants once every 3 years, primary & permanent teeth	Sealants once every 3 years, primary & permanent teeth	D1351	Adult additional benefit for unrestored permanent bicuspids and molars. Additional sealant coverage for children for unrestored primary molars. Sealants are covered per tooth every 3 years. Sealants include repair or replacement once every 3-year period.
	Oral Hygiene Instruction	1 per Lifetime	D1330
