

DeltaVision[®]

2025 Plans

We've partnered with EyeMed, America's fastest growing vision benefits company, to introduce DeltaVision to South Dakota.

Eyes reflect overall health.

DeltaVision is a smart, affordable way to keep an eye on your vision – and on your health.

Even if you don't wear eye protection, routine eye exams can help detect early signs of chronic health conditions that impact other aspects of overall health, such as high blood pressure or diabetes.¹

Simple, yet comprehensive plans offer benefits with **choice**, **flexibility**, and **savings** so it's easy for members to access the vision care and services they need.

Choice.

The EyeMed[®] vision care network makes it easy to find trusted, in-network eye doctors. Members receive care suited for them with providers across South Dakota, including independent doctors and top optical retailers. Locate an in-network provider by using our 'Find an Eye Doctor' tool on our website.

Flexibility.

Get the service you want when you want it. Visit in-network providers online, in person, and on the weekends. Members can even shop for glasses, contacts, and sunglasses online and instantly apply in-network benefits at checkout.

Savings.

Receiving in-network care pays. Members who see an in-network provider, save an average of 71% off the retail price of eye exams and glasses.³

Exclusive offers from in-network providers and manufacturers help members save even more.

93%

93% of adults regularly wear some form of eyewear.²
